SAGE UNIVERSITY BHOPAL

Sanjeev Agrawal Global Educational (SAGE) University Bhopal

Sanjeev Agrawal Global Educational (SAGE) University, Bhopal, is committed to strategic growth and delivering top-quality, multi-disciplinary education. The university focuses on holistic development, emphasizing values, skills, and abilities to help students make informed real-life decisions. Recognized as a Centre for Liberal Education, SAGE University Bhopal is dedicated to nurturing future leaders through innovative academic practices and cutting-edge programs. With a strong emphasis on practical exposure and smart learning, the university prepares students to excel in the real world. Its outstanding academic faculty, world-class infrastructure, and exceptional placement opportunities make it a leading institution in India and beyond. SAGE University, Bhopal, envisions becoming a global leader in education and research, setting benchmarks with its excellence in teaching and its forward-thinking approach. The university fosters a learning-centric environment, offering state-of-the-art facilities to ensure students receive a well-rounded education. It stands apart from other institutions by focusing on life-long learning, personal growth, and character building. SAGE University also promotes community engagement, inspiring students to participate in social initiatives and make a positive impact on society. By combining academic rigour with a holistic education, SAGE University, Bhopal, provides an unparalleled platform for students to grow, thrive, and achieve their dreams with the best placement opportunities while ensuring they are prepared for the challenges of tomorrow.

MBA-FORESTRY MANAGEMENT

Seats: 30 | Course Duration : 2 years

Environment Shaping Business Lifestyles

Program Overview

- Develop expertise in the sustainable management of forest resources.
- Master the skills required for leadership roles in environmental conservation.
- Graduate with a professional network through industry collaborations and mentorship programs.
- Manage natural resources and forest ecosystems.

Admission Process

- **35%** PAST ACADEMIC & EXTRA-CURRICULAR PERFORMANCE
- **35%** APPLICATION STRENGTH-QUALITY OF STATEMENT OF PURPOSE
- **30%** APTITUDE TEST PERSONAL INTERVIEW LOR

ADMISSIONS

The SEE/CAT/XAT/MAT/CMAT entrance test score will be considered for admission

ELIGIBILITY

Graduates from any stream with minimum of 60% marks

Why Join the **Management Forestry?**

- **Diverse Placements**: Opportunities with top organizations like Aditya Birla, HDFC, Ernst & Young, and UNICEF.
- **Skill Development**: Gain expertise in forest management, natural resources, and sustainable products.
- **Career Demand**: Growing need for professionals skilled in business and environmental stewardship.
- **Industry Connections**: Strong ties with leading industry professionals and research organizations.
- **Transformative Journey**: Shape the planet's future while building a rewarding career.

What will you learn from the **Program?**

- **Forest Ecosystem Management**: Learn sustainable strategies to maintain forest resources and ecological balance.
- **Environmental Policy and Law**: Study regulations governing forest conservation and environmental protection.
- **Sustainable Business Practices**: Explore resource economics, supply chain management, and corporate responsibility in forestry.
- **Wildlife Conservation and Biodiversity**: Understand the importance of protecting biodiversity within forest ecosystems.
- **Climate Change and its Impact on Forests** : Examine forest management strategies for climate change mitigation and adaptation.

USPs of the Program

Innovative Insights

Comprehensive research, expert consulting, and impactful forestry publications.

Hands-on Learning

7-week internships, fieldwork, live projects, and case studies.

Centres of Excellence

Focus on CSR, climate change, policy studies, sustainable forestry, and tribal livelihoods.

Industry Integration

Mentoring sessions and real-world experiences bridging academics and industry.

Key Features of our Program

- Unique Learning Approach
- Relevant Industry Collaborations
- Specialized Curriculum
- Field Visits and Workshops
- World-Class Infrastructure
- Research Opportunities
- Experienced Faculty
- Global Perspective

MS BIOLOGY

Seats: 10 | **Course Duration: 2 years**

Program Overview

The University offers new and exciting opportunities with a keen sense of scientific enquiry for pursuing advanced research in frontier areas of Life and Chemical Sciences leading to an MS degree. The 2- year master's degree program consists of foundational and flexible coursework and hands-on laboratory training. The design is aimed at developing experimental skills in advanced techniques for research, leading to an independent thesis research project. Students enrolled in the MS program can personalize their coursework and research projects.

Admission Process

- **35%** PAST ACADEMIC & EXTRA-CURRICULAR PERFORMANCE
- **35%** APPLICATION STRENGTH-QUALITY OF STATEMENT OF PURPOSE
- **30%** APTITUDE TEST PERSONAL INTERVIEW LOR

ADMISSIONS

The admission will be based on the JAM score.

ELIGIBILITY

Students must have a Bachelor's Degree in the relevant discipline with a minimum of 60% marks or a Cumulative Grade Point Average/Cumulative Performance Index (CGPA/CPI) of 7.0 on a 10-point scale.

Why Join the **MS Biology Program?**

- The program is ideal for students passionate about science and research.
- Offers exposure to diverse scientific fields like cell biology, molecular biology, genetic engineering, biochemistry, and bioinformatics.
- Students will be prepared for roles in academia, R&D, and industry, or for pursuing PhDs at top institutions globally.
- Access to state-of-the-art laboratories, libraries, and computing resources to enhance hands-on learning.

What will you learn from the **Program?**

- Students with a comprehensive foundation in the life sciences are empowered to excel in applied research.
- Students are engaged in experiential learning to build a comprehensive understanding of essential concepts along with theoretical study.
- Pursue a research project in collaboration with the National Research Labs on frontier technologies and research areas.
- Students are fine-tuned into well-rounded scientists with the knowledge, curiosity, and skills to tackle scientific challenges.

USPs of the Program

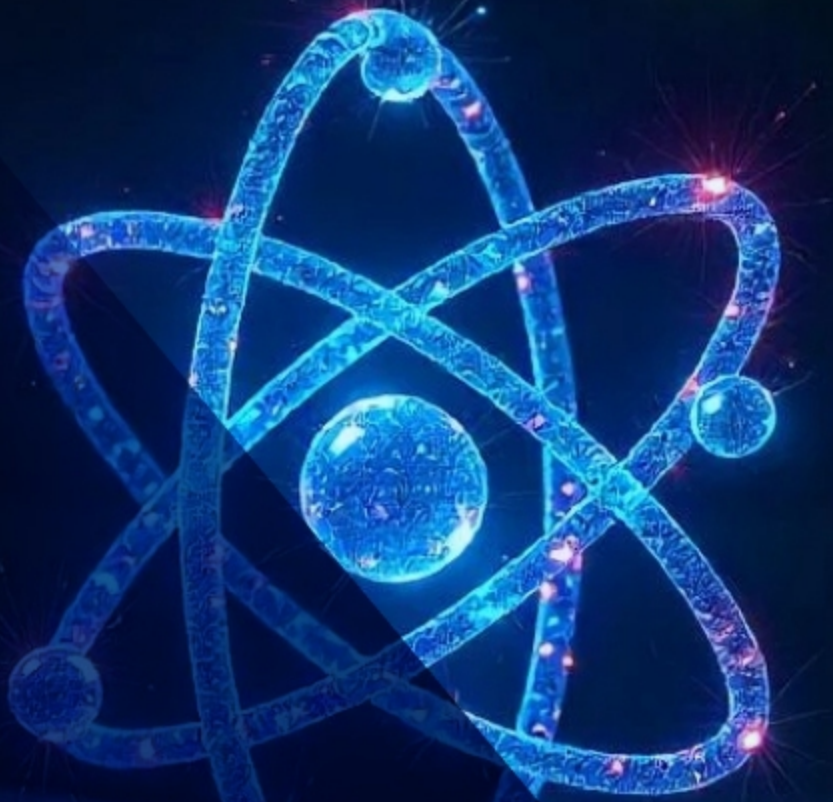

The program is designed to nurture scientific talent and research acumen. Here are the key highlights:

Includes core courses, electives, and advanced specialization options.	Provides guidance from leading scientists and researchers across various disciplines.	Proffers opportunities for national and international research internships.

Key Features of our Program

The MS Biology program is tailored for students who aspire to excel in science, offering a blend of rigorous academics and transformative research experiences. This program is designed to nurture scientific talent and research acumen.

MS CHEMISTRY PROGRAM

Seats: 10 | **Course Duration: 2 years**

Program Overview

The MS in Chemistry program is typically a two-year graduate degree focusing on advanced study and research in various branches of chemistry, such as organic, inorganic, physical, analytical, and biochemistry. Students engage in a mix of coursework and independent research. In the final year, students indulge in project work with a faculty. The program prepares graduates for careers in research and development and government laboratories or serves as a stepping stone to a PhD program.

ADMISSIONS

The admission will be based on the JAM score.

ELIGIBILITY

The candidates who have passed the B.Sc in Chemistry with a minimum 60% aggregate.

Why Join the **MS Chemistry Program?**

- If you have a strong interest in chemistry and want to deepen your knowledge, the MS program provides advanced coursework and research opportunities to build expertise in specialized areas.
- Students will be prepared to pursue PhD in government or international laboratories.

What will you learn from the **Program?**

- Students will deepen their understanding of core and advanced chemistry courses.
- They will gain hands-on experience with cutting-edge laboratory techniques, instrumentation, and experimental methods used in chemical research. This includes techniques for the synthesis, purification, and analysis of chemicals.
- Through research projects and coursework, they'll learn how to design and conduct scientific experiments, analyse data, and interpret results. They will also develop critical thinking and problem-solving skills to address complex chemical questions.

USPs of the Program

The MS in Chemistry program offered is unique and prestigious due to the following USPs:

The program provides thorough knowledge in specialized fields allowing students to gain expertise in Career relevant areas.

Students often engage in cutting-edge research, working alongside experienced faculty members in well-equipped labs, which helps them develop practical skills and contribute to scientific advancements.

Key Features of our Program

- The program offers an in-depth study of core chemistry areas such as organic, inorganic, physical, and analytical chemistry, with opportunities to specialize in advanced topics.
- Students will have access to cutting-edge laboratory equipment and technologies, gaining practical experience with advanced tools.
- A significant portion of the program is dedicated to research, where students gain hands-on experience in laboratories, conducting experiments, analyzing data, and contributing to scientific advancements in chemistry.
- They will be prepared for pursuing PhD from national and international research institutes.

BS-MS INTEGRATED PROGRAM

Seats: 30 | **Course Duration: 5 years**

Program Overview

The BSMS in Natural Sciences is a combined undergraduate and postgraduate program integrating foundational knowledge in biology, chemistry, physics, and mathematics with advanced specialization and research. Over five years, students explore core concepts, engage in interdisciplinary learning, and gain hands-on experience through laboratory work and independent research. The program culminates in a master's thesis or project, preparing graduates for further studies/research. This streamlined pathway offers an in-depth understanding of natural sciences while fostering critical thinking and problem-solving skills.

ADMISSIONS

The IISER Aptitude Test (IAT) score will be considered for admission

ELIGIBILITY

The candidates who have passed the 12th exam with a minimum 60% aggregate in the science stream are eligible.

Why Join the **BS-MS Program?**

- BSMS program at SAGE University Bhopal is ideal for students passionate about science and research who want a strong foundation and exposure to interdisciplinary and cutting-edge fields.
- It combines undergraduate and postgraduate studies ensuring a seamless transition between foundational and advanced topics.
- It also offers exposure to diverse scientific fields like chemistry, biology, physics and mathematics, allowing students to explore and specialize later.
- Students will be prepared for roles in academia, R&D, and industry or to pursue PhDs at top institutions globally.
- The university provides access to state-of-the-art laboratories, libraries, and computing resources to enhance hands-on learning.

What will you learn from the **Program?**

- The BS-MS dual degree program provides students with a comprehensive foundation in their chosen field.
- Students will be able to develop a broad understanding of core concepts and will implement advanced technology.
- The final year is dedicated to research, allowing students to apply their knowledge practically.
- This program moulds students into well-rounded scientists with the knowledge, curiosity, and skills to tackle contemporary scientific challenges.

USPs of the Program

The Bachelor of Science and Master of Science (BS-MS) dual degree programs offered are unique and prestigious due to the following USPs:

Students explore a broad range of sciences in the initial years, then specialize in later years.

Modern laboratories, libraries, and computational resources for hands-on learning.

Final year BS-MS students will get to focus on research domains relevant to their major discipline leading to formal MS thesis completion and publication.

Access to renowned professors and researchers across various disciplines.

Key Features of our Program

The BS-MS dual degree program is tailored for students who aspire to excel in science, offering a blend of rigorous academics and transformative research experiences. This program is designed to nurture scientific talent and research acumen. Here are the key highlights:

- Combines Bachelor's and Master's degrees in a seamless 5-year integrated program.
- Includes core courses, electives, and advanced specialization options.
- Guides students across various disciplines.
- Provide opportunities for national and international research internships

The candidates should have a Bachelor's degree from a recognized university with atleast 60% marks.

The Four Pillars Journey: To Shape Your Own Path

Startup eco system
every thing you need to know

Why Join the MBA program?

- **Your Career Launch Pad -** The CLAS MBA paves the way for transformation.
- **Shape Your Future -** With its concentrated focus on learning-by-doing and real-time problem solving.
- **Robust Curriculum -** Develop a skillset that truly differentiates you in the global marketplace.
- **New Horizon Capstone -** Apply classroom- taught knowledge and research to develop their analytical toolbox.
- **Internships -** To accelerate their careers within the industry sector.

What will you learn from the Program?

- Introductory Courses on Business Concepts, Data Science, Art of Negotiation, Business Simulation, Leadership Communication
- Learn :
  a. Problem-Solving Techniques b. Ethics and Sustainability c.Develop New Ideas
- Leadership Influence and Decision Making, Solving Business Challenges and Surfing on Uncertainty, Sustainable and Disruptive Innovation
- Data and AI for Business Transformation

USPs of the Program

- One-on-one mentorship sessions
- Meetings with business leaders
- Group discussions
- Comprehensive Career Services
- Frequent on-campus company presentations and recruitment events
- Formal and informal events with alumni
- Training with corporate
- Workshops on CV writing, interview preparation, impactful communication, international business etiquette, pitching and job-search strategies
- Panel discussions and question-and-answer sessions with industry leaders
- Case competitions and case-cracking Boot camps
- Training by CEO's, & Global Exposure
- Comprehensive Career Services

Career Opportunities:

1. Product Designer
2. Industrial Designer
3. Handicraft Designer
4. Visual Merchandiser
5. 3D Designer
6. Design Consultant
7. Product Design Manager

Program Overview

The Bachelor of Design in Product Design program at SAGE University Bhopal offers a comprehensive education that blends both the creative and technical dimensions of product development. Students explore key areas such as Design Science, Creative Manufacturing, Design Approaches, CIAD, and Core Design Principles.

Admission Process

- **35%** PAST ACADEMIC & EXTRA-CURRICULAR PERFORMANCE
- **35%** APPLICATION STRENGTH-QUALITY OF STATEMENT OF PURPOSE
- **30%** APTITUDE TEST PERSONAL INTERVIEW LOR.

ELIGIBILITY

- 10+2 in any stream with a passion for creativity and problem-solving.
- Graduates from any stream with minimum of 60% marks.

SUCCESS, BY ~~CHANCE~~ Design

PRODUCT DESIGN PROCESS

AFTER REVIEW, PROCESS CAN RETURN TO ANY PREVIOUS STAGE AS NEEDED

Why Join the **B.Design-Product Design?**

- **Global Exposure:** Participate in international exchange programs and design competitions.
- **Industry Projects:** Collaborate with leading companies on live projects and case studies.
- **Internships & Placements:** Strong industry connections for internships and career placements.
- **Holistic Development:** Focus on soft skills, team collaboration, and professional networking.
- **Portfolio Showcase:** Dedicated events to exhibit student work to industry leaders.
- **Focus on Sustainability:** Emphasis on eco-friendly and responsible design practices.

About **B.Design-Product Design?**

- The Bachelor of Design (B. Des) in Product Design is a 4-year undergraduate program that equips students with the skills and knowledge to design innovative, user-centered, and sustainable products.
- Combining creativity, technical expertise, and problem-solving, the curriculum covers design thinking, materials and manufacturing, ergonomics, and prototyping.
- Students engage in hands-on learning through workshops, real-world projects, and industry collaborations, culminating in a professional portfolio.
- This program opens diverse career paths, including product design, UX/UI, industrial design, and more, making it ideal for those passionate about shaping the future of design and technology.

Key Features of our Program

- Human-Centered Design
- Prototyping & Fabrication
- Design Thinking
- Sustainability
- Technology Integration
- CAD & Digital Tools
- Branding & Aesthetic Design
- Cross-Disciplinary Collaboration
- Design Ethics
- Innovation & Trend Analysis

M.Sc. CLINICAL EMBRYOLOGY

Seats: 30 | **Course Duration: 2 years**

Career Opportunities:

- Fertility Researcher
- Lab Managers
- Teaching and Academia
- Clinical Embryologist
- Fertility Consultant

Program Overview

M.Sc in Clinical Embryology is a two-year postgraduate degree program with a main focus on all the key aspects of clinical and scientific areas. It emphasizes the overall development of essential skills of an embryologist and empowers the student with hands-on experience and focus on clinical practices being used in Assisted Reproductive Technology (ART) clinics. Over four semesters, students gain hands-on experience in clinical laboratories, engage in direct patient counselling, and work in top-tier facilities designed to refine their skills from trainee to professional embryologist. An industry-academia collaboration also enables students to undertake semester-long internships at prestigious centres nationwide.

Admission Process

- **35%** PAST ACADEMIC & EXTRA-CURRICULAR PERFORMANCE
- **35%** APPLICATION STRENGTH-QUALITY OF STATEMENT OF PURPOSE
- **30%** APTITUDE TEST PERSONAL INTERVIEW LOR

ELIGIBILITY

The candidates who have completed their B.Sc from any UGC-recognized university with Reproduction, Zoology, Microbiology, Biochemistry, Bioscience or Physiology or any subject related to Life Sciences, MBBS/BDS/ BAMS/ BHMS, Pharmacy, Nursing, or any other equivalent degree with 60% of marks in aggregate are eligible to apply for this course.

Why Join the **M.Sc. Clinical Embryology program?**

- The Indian in-vitro fertilization market industry stood at USD 845.07 million in 2023 and is anticipated to grow with a Compound Annual Growth Rate (CAGR) of 8.29% in 2025-2029.
- The program delivers intensive teaching for students in both fundamental and applied aspects of subject areas directly related to clinical embryology such as human reproductive biology, embryology, infertility and ART.
- To understand and analyze the business management skills, ethical and legal issues associated with ART and the treatment of infertility.
- To build a network of potential leaders in clinical embryology for the future.

What will you learn from the **Program?**

- The knowledge of cryopreservation & practice of embryo freezing so that they can work in cryopreservation centres.
- The understanding and appreciation of how current molecular technologies (such as the human genome sequencing project, embryonic stem cells, cloning, nuclear transfer and reprogramming) might relate to the future treatment of infertility and the ethical/legal issues involved.
- Professional training in micromanipulation of sperm and oocytes for carrying out ICSI and single-cell biopsies of embryos for pre-implantation genetic diagnosis

USPs of the Program

- Clinical exposure in Apollo SAGE Hospital
- Apollo SAGE fertility offers state-of-the-art advanced techniques of Micro TESE & Laser Assisted hatching which optimizes outcomes with your own Gametes
- Choice-based curriculum
- Well-equipped laboratories and library
- Self-directed learning strategies
- Hands-on experience in clinical laboratories
- Collaboration with other academic universities, health science institutes, and industry

Key Features of our Program

The program offers a well-built course to broaden the perspective and knowledge of students in clinical embryology.

- Provides guidance from the finest expert teachers, along with guest faculty members from the research institute, the industry, and subject experts.
- Includes core courses, electives, and advanced specialization options.
- Opportunities for collaboration with other academic universities, health science institutes, and industry for the research and development of translational approaches.

B.Tech. (Hons.) AI WITH QUANTUM

Seats: 60 | Course Duration: 4 years

Why Choose **B.Tech. (Hons.) AI with Quantum?**

- AI Market Growth – The global AI market is expected to reach $1.8 trillion by 2030, growing at a 37.3% CAGR (PwC, Gartner).
- Job Demand – AI and Quantum-related jobs have seen a 75% growth in the last five years, with salaries exceeding $120,000 per year (Glassdoor, 2024).
- Quantum AI Applications – Quantum AI can boost machine learning tasks by 100x compared to classical AI (IBM, 2023).
- AI in Quantum Research – Over 65% of AI researchers believe Quantum Computing will significantly impact AI advancements by 2035 (MIT Tech Review, 2024).
- Cybersecurity Breakthroughs – Quantum Cryptography promises unhackable encryption, which could replace traditional security methods by 2040 (NIST, 2023).
- Global AI Workforce – The AI sector is expected to create 97 million new jobs by 2025 (World Economic Forum, 2024).
- Quantum Computing Growth – The quantum computing market is projected to grow at a 38.3% CAGR, reaching $125 billion by 2040 (Fortune Business Insights, 2024).
- Quantum-AI Integration – Companies like IBM, Google, and Microsoft are heavily investing in Quantum AI, with over 200+ Quantum AI startups globally.

Key Features of our Program

Strong AI & Quantum Foundation:
Covers Machine Learning, Deep Learning, Quantum Mechanics, and Quantum Computing from basics to advanced levels.

Hands-on Quantum Programming :
Practical experience with Qiskit, Cirq, and Quantum AI frameworks for real-world applications.

AI-Quantum Integration
Learn how Quantum Computing enhances AI in optimization, cryptography, and complex problem-solving.

Industry-Oriented Curriculum
Includes Cloud AI, Edge Computing, Blockchain,Cybersecurity, and Robotics, aligned with industry needs.

Research & Innovation Focus
Encourages paper publishing, patents, and R&D projects in AI and Quantum Computing.

High-Performance Computing (HPC) Training
Exposure to Quantum Simulation, AI Accelerators, and Supercomputing.

Specialized Electives & Emerging Technologies
Covers Generative AI, Explainable AI (XAI), Quantum Sensors, and AI in Bioinformatics.

Industry Collaboration & Internships
Partnerships with IBM, Google, Microsoft, and research labs for real-world exposure.

Capstone & Startup Support
Final-year project focuses on AI-Quantum innovations, entrepreneurship, and industry applications.

Global Career Opportunities
Prepares for roles like AI-Quantum Researcher, Data Scientist, Quantum Engineer, and AI Specialist.

What You Will Learn in Btech AI with Quantum Computing

Fundamentals of AI & Quantum Computing
Understand the core principles of Artificial Intelligence, Machine Learning, and Quantum Mechanics.

Programming & Development
Gain expertise in Python, Java, Qiskit, and Cirq for AI and Quantum Computing applications.

Machine Learning & Deep Learning
Master Supervised, Unsupervised, Reinforcement Learning, Neural Networks, CNNs, RNNs, and Generative AI.

Quantum Algorithms & Computation
Learn Quantum Gates, Qubits, Quantum Fourier Transform, Grover's & Shor's Algorithms.

AI-Quantum Integration
Explore how Quantum Computing enhances AI applications in optimization, cryptography, and drug discovery.

Advanced AI Applications
Work on Natural Language Processing (NLP), Computer Vision, Explainable AI (XAI), and Edge AI.

High-Performance & Cloud Computing
Learn about AI acceleration, GPU computing, Quantum Cloud platforms, and Quantum AI frameworks.

Interdisciplinary Technologies
Understand how AI and Quantum Computing integrate with IoT, Robotics, Blockchain, and Cybersecurity.

Research & Industry Projects
Develop real-world applications through internships, research papers, patents, and AI-Quantum projects.

Entrepreneurship & Career Readiness
Get industry exposure, networking opportunities, and skills to launch AI-Quantum startups or research careers.

3. Business Analytics
4. Entrepreneurship

Career Opportunities:

- Management Consultant
- Marketing Specialist
- Public Relations Manager
- Business Analyst
- Entrepreneur
- Technology Manager
- Policy Advisor
- Media and Communication Specialist

Program Overview

- Liberal education is a progressive curriculum which includes extensive knowledge of various subjects.
- At SAGE University, Centre for Liberal and Advanced Studies, we aim to explore the wonderful world of interdisciplinary and multi- disciplinary approaches to education.

Admission Process

- 35% PAST ACADEMIC & EXTRA-CURRICULAR PERFORMANCE
- 35% APPLICATION STRENGTH-QUALITY OF STATEMENT OF PURPOSE
- 30% APTITUDE TEST PERSONAL INTERVIEW LOR.

ELIGIBILITY

- 10+2 in any stream with a passion for creativity and problem-solving with minimum of 60% marks.

Why Join **BBA?**

Choosing a BBA in liberal education offers several compelling advantages that can significantly enhance your personal and professional development:

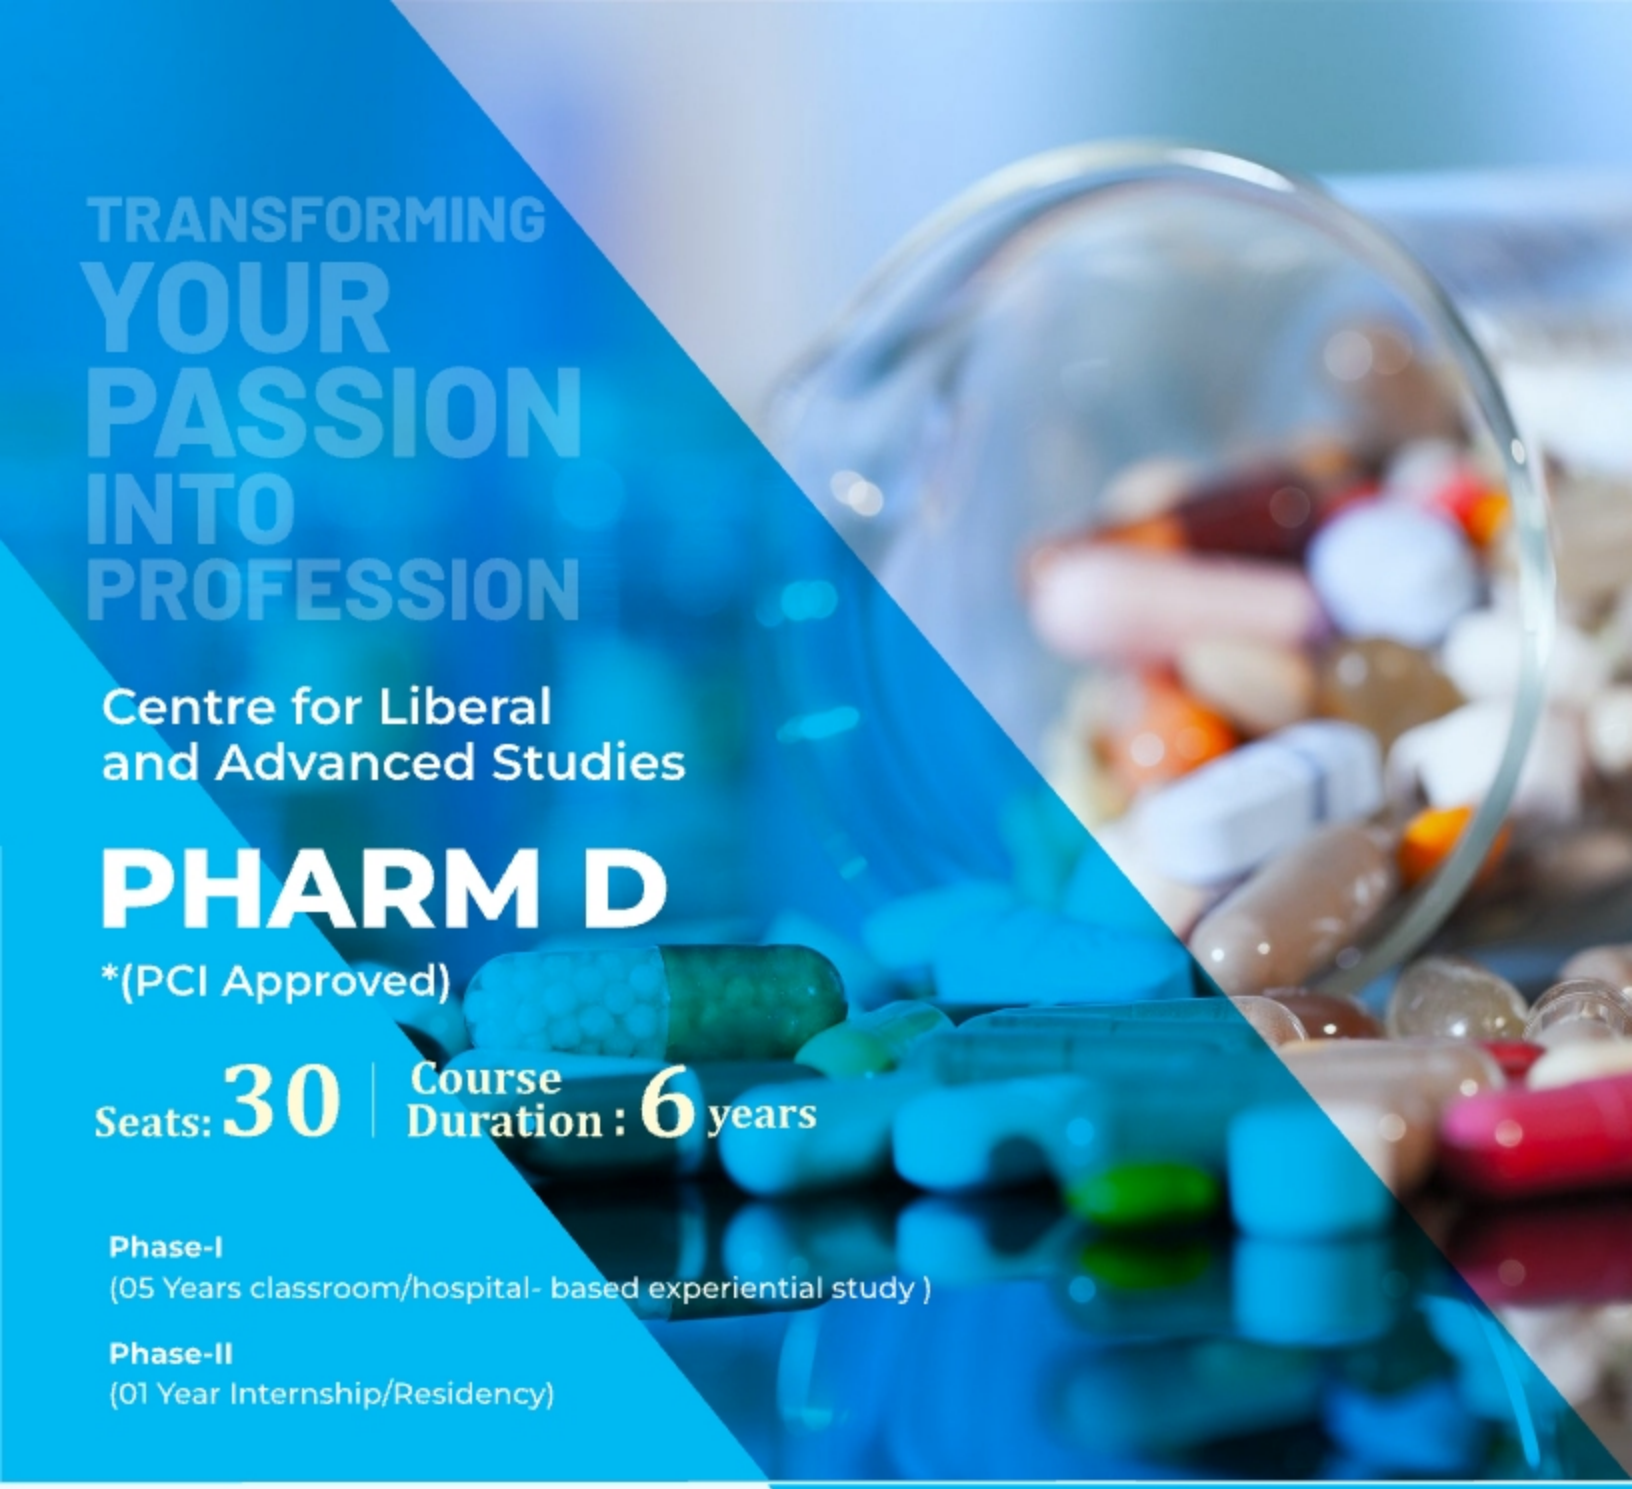

- **Holistic Development**
- **Adaptability**
- **Ethical Reasoning**
- **Effective Communication**
- **Critical Thinking and Problem Solving**
- **Career Flexibility**
- **Preparation for Global Citizenship**

USPs of the Program

- Interdisciplinary Learning - 14 plus major minor combination.
- Learning from the Experts - Faculty from top institutions such as IIT, and Harvard University.
- Nurturing for the Corporates from the Corporates.
- Personal and Intellectual Growth - Personalized counselling sessions to choose the right major and minor.
- Ethical and Civic Responsibility - Socio-cultural internship alongside corporate internship.
- Global Opportunities - Fostering global connections and providing diverse opportunities for our students through various programs and partnerships with esteemed international universities.

Key Features

- Blended Learning Approach: Combination of traditional classroom learning with modern e-learning platforms and gamified content delivery.
- Industry Mentorship Programs: Direct guidance and networking opportunities with senior executives and industry leaders.
- Soft Skills Training: Dedicated modules on interpersonal skills, public speaking, emotional intelligence, and teamwork.
- Modern Classrooms: Smart classrooms with interactive learning tools.
- Community Engagement: Involvement in CSR projects and community-building activities.
- Corporate Partnerships: Tie-ups with leading organizations for internships, live projects, and corporate training.

- **30%** APTITUDE TEST PERSONAL INTERVIEW LOR.

About the Pharm D

Pharm D is a professional doctorate program tailored for those who want to have a prosperous career in healthcare across the globe. This practice-intensive program trains the graduates in basics of biomedical sciences, pharmaceutical sciences and advanced clinical sciences with unique course work

Career Prospects **India and Abroad?**

Pharm D candidates may work in the following fields:

- **Pharmacy Practice:** Clinical/Hospital/ Community Pharmacist in Corporate Hospitals.
- **Clinical Research Organizations:** Drug Safety Associate, Clinical Trials Associate, Clinical Research Data Specialist, Medical/Scientific Writer.
- **Govt. Organizations :** Residency Program in Specialty Clinical Pharmacy.

FOCUS

This six-year program is unique because it combines the development and application of advanced clinical pharmacy skills with contextual research.

USPs of the Program

- Internationally acclaimed Degree for the US, UK, & Australia.
- Mentoring from seasoned Medical Professionals/ Doctors from Apollo Hospital .
- Internship/ Placement opportunities with Apollo SAGE Hospital.
- Advanced Laboratories with the latest technology.
- Excellent infrastructure in central India.

STUDENT CLUBS

With an objective of help students to pursue their hobbies and interests and to bring people together the student clubs are created at the SAGE University.

- Innovation Club
- Sports Club
- SPIC MACAY
- Rotract Club
